

Prototype – Scoring Rubric

Note: Your instructor will assess your demonstration prototype during a coordinated time on the day of the Design Showcase. You will need to demonstrate the full functionality of your prototype at this time.

Learning Objective & Description of Full Achievement		Achievement			
2.6: Produce a physical prototype using basic fabrication techniques, including basic shop, electronics fabrication, and rapid prototyping techniques	Craftsmanship: Prototype construction is of good quality; no cardboard / tape / gobs of hot glue	N	P	M	F
		0	6	8	10
6.3: Demonstrate curiosity about the world and about your profession	Function: Prototype functions reliably	N	P	M	F
		0	6	8	10
6.7: Set goals and evaluate progress towards achieving those goals	Innovation: Design demonstrates creative thinking about the problem at hand	N	P	M	F
		0	6	8	10
	Ambition: Design demonstrates willingness to take risks to challenge existing designs	N	P	M	F
		0	6	8	10
